### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Bernstein and Steve Fischman on September 03, 2004.

The application has been amended as follows:

In the specification on page 6 at line 30, after "software" and before the period ".";

-- and any such arrangement wherein the device is set to perform the tasks of the algorithms disclosed herein, either by hardwire circuitry, stored instructions, or combination thereof, would comprise a means for comparing a pre-dose curve of QT interval versus RR interval to a post-dose curve of QT interval versus RR interval, determining the incidence of points of the post-dose data that exceed an upper 95% single-point prediction limit to determine the degree of heterogeneity of ventricular repolarization and a means for comparing the points of the post data that exceed the upper 95% single-point prediction limit of the pre-dose curve to determine the magnitude of these points and provide a quantitative assessment of treatment-induced changes in the QT-RR relationship -- has been inserted

The following is an examiner's statement of reasons for allowance: The examiner's amendment is to clarify in the specification that the means expressed in claim 11 is a device that has set therein, either by using algorithm stored instructions and processor, or by hardwired components, the function performed by the means as opposed to simply a processor that would be capable of executing instructions as was the interpretation of art applied in the rejection of claims 11 – 15 as anticipated by Neilson USPN 6,238,350 in the office action dated 3-24-04

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark W Bockelman whose telephone number is (703)-308-2112. The examiner can normally be reached on Monday - Thursday 10-8:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (703) 308-5181. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
